## SG300 PERSONAL ATTACK ALARM

### MINI KEY CHAIN ELECTRONIC ALARM

The Smallest Loudest Electronic personal alarm available. This stylish alarm was designed in the UK after mass research with our customers who demanded a small, lightweight alarm with easy to use torch. The SureGuard SG300 provides peace of mind in most distress situations such as personal assault, attempted rape or animal attack. The SureGuard SG300 alarm has been designed to attach to your key ring to offer immediate personal protection with the added benefit of a high intensity torch, which flashes to attract attention. The torch can also be used independently, lighting the way or locks.

The SureGuard SG300 has a separate pull cord and key ring attachment enabling the alarm to be fixed to a bag to alert of theft. The alarm is activated when the pin is retracted and only stops when the pin is replaced. The SG300 will run for up to 30 mins on a fresh battery.
