

SURE

LCKAMHD LOCK ALARM HEAVY DUTY

ARMoured CABLE LOCK AND ALARM

SURE24's Heavy Duty Lock Alarm secures and alarms any large product within seconds. From motorbikes to horse equipment, garden tools to fishing equipment, the Lock Alarm is a very simple thick heavy duty cable lock system to enhance security.

A 110 dB siren sounds if any attempt to cut or break the cable or any attack is made on the chasis/lock of the alarm. Movement sensors detect tampering. It is extremely simple to use; exactly like a normal bike alarm. The alarm is safe to use inside and out as it can be used in all weathers.

The cable comes in two lengths, 0.7m and 1.2m, so larger products can be protected as well.

Suitable Uses

- Motorcycles/Bicycles
- Garden Machinery
- Trailers and Boats
- ATV's
- Construction Equipment

Features

- Very simple to use and set-up
- Cable is easily and neatly stored when not in use
- Portable or anchored to wall
- 110+ dB siren
- Gives an excellent level of security to hard to secure products.

SURE 24 have a wide range of other security products including;

- Property Security
- CCTV
